

Marine Spatial Planning – Section II.D.15

Overview of the responses submitted via National Reports

Arc'hantael Labrière, ASCOBANS Secretariat

15.1. Please provide information regarding current and foreseen National marine spatial planning

In consultation, being prepared or awaiting approval:

- DK
- FR
- DE
- PL
- GB

Marine Spatial Plans adopted before 2019:

- LT (2015)
- GB (ex: Scotland – 2015)

Recently published(2019-2021):

- BE
- FI

© S. Hooker / Sea Watch Foundation

15.1. Please provide information regarding current and foreseen transboundary marine spatial planning

- Espoo Convention (BE)
- Guidelines from Joint HELCOM-VASAB MSP Working Group (FI)

- CetAMBICion project between FR, Spain and Portugal (FR)
- BSH a partner in European projects, incl. energy, shipping, environment. (DE)

- Harmony Link collaboration (LT, PL)
- In preparation (DK, PL)
- No transboundary MSP in preparation or in force (GB)

15.2. Have there been any other instances / issues in your country regarding marine spatial planning in 2020?

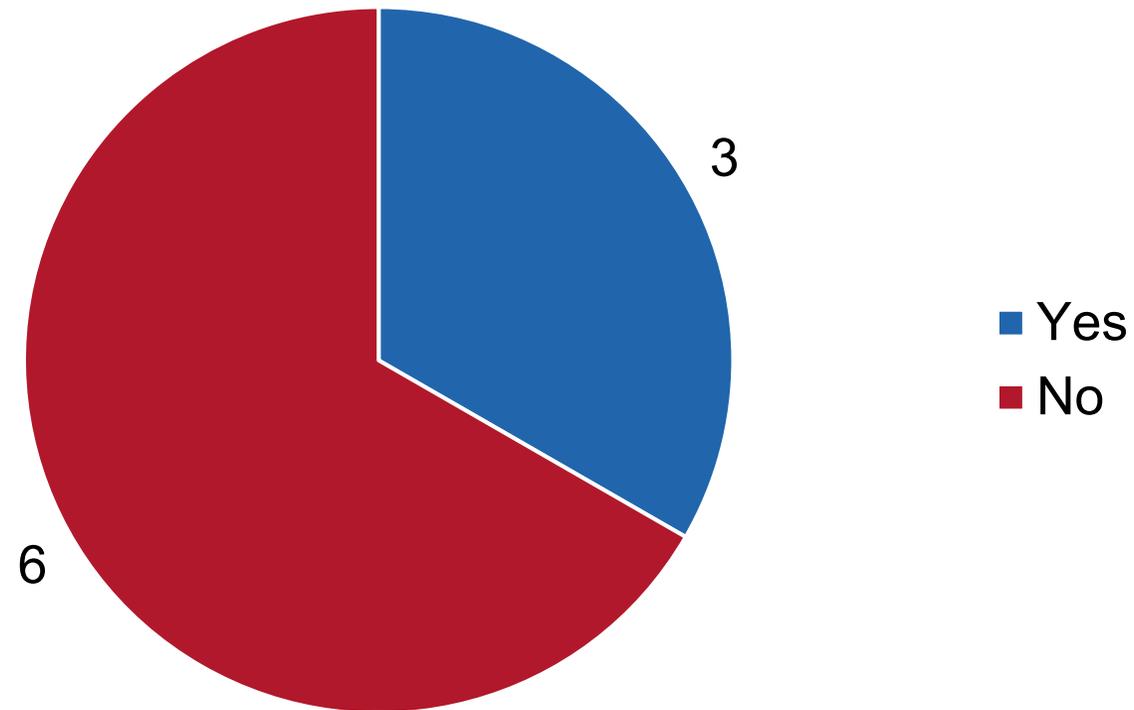

Figure 1 Presence or absence of issues and instances related to Marine Spatial Planning in 2020

15.3. Relevant new research / work / collaboration on marine spatial planning in your country

Include:

- The Marine Spatial Plan 2020-2026 (BE)
- A data-driven framework for ecosystem-based Maritime Spatial Planning in Danish waters (DK)

- Scenarios for maritime areas 2050 (FI)
- SIMNORAT project (FR)

- Small cetacean in a human high-use area: Trends in harbour porpoise abundance in the North Sea over two decades (DE)

- Investigating marine ecosystem services in Lithuania (LT)
- MarPaMM Project (GB)
