

1.8. Provide details relevant for recorded stranding events during the reporting period.

The international Whaling Commission (IWC) has a global database for ship strike incidents with small cetaceans. Whether or not your country is Party to the IWC, it is encouraged for countries to provide all ship strike incident information to the IWC database. Add rows if necessary.

Year	Species <small>(Select from drop-down)</small>	Region <small>(Select from drop-down)</small>	Total animals stranded	Number of dead animals	Number of animals stranding alive	Response to live stranding <small>(describe # of successful cases and methods used)</small>
2025	HP - Harbour Porpoise	OII Southern North Sea	152	150	2	
2025		OII Southern North Sea	1	1		
2025	HP - Harbour Porpoise	OII Southern North Sea	98	98		
2025	HP - Harbour Porpoise	H Arkona Basin	32	32
