

1.8. Provide details relevant for recorded stranding events during the reporting period.

The international Whaling Commission (IWC) has a global database for ship strike incidents with small cetaceans. Whether or not your country is Party to the IWC, it is encouraged for countries to provide all ship strike incident information to the IWC database. Add rows if necessary.

Year	Species (Select from drop-down)	Region (Select from drop-down)	Total animals stranded	Number of dead animals	Number of animals stranding alive	Response to live stranding (describe # of successful cases and methods used)
2025	HP - Harbour Porpoise	OII Southern North Sea	397*	389*	8	<ul style="list-style-type: none"> •One refloated •One euthanised on the beach •Six taken into rehabilitation, but died either during transport, or a few days later. One of these was euthanized in the rehabilitation centre. <p>*Total number reported on stranding.nl, but as mentioned before not all strandings are entered in to the database so this may be an underestimation.</p>
2025		OII Southern North Sea	1	1	0	<i>Unknown Delphinid</i>
2025	CD - Short-beaked Common Dolphin	OII Southern North Sea	4	4	0	
2025	SBW - Sowerby's beaked whale	OII Southern North Sea	2		2	One was refloated, but re-stranded and died. Other was euthanised.
2025	BD - Bottlenose dolphin	OII Southern North Sea	1	1	0	
2025	WBD - White-beaked dolphin	OII Southern North Sea	1	0	1	Died before it was found - necropsy indicated that the animal most likely stranded alive and subsequently died.
