The COVID-19 pandemic has rendered physical gatherings impossible, and so has presented UNEP and multilateral environmental agreements with the challenge of devising solutions, that may apply not only during but also beyond the pandemic. In addition, Parties at their 9th Meeting (September 2020) decided that the Advisory Committee meeting following and preceding the Meeting of the Parties would take place virtually.

UNEP conducted an internal study on options, opportunities and barriers for accelerating a transition to multilateralism in a virtual setting. The study looked at Rules of Procedure highlighted that virtual meetings should seek to follow the applicable Rules of the body in question. Thus, the intention should not be to revise Rules but rather to ensure that they can be applied in the context of a virtual meeting, with supplementary Rules, as appropriate. Operating procedures for virtual meetings should not deviate from but rather elaborate and/or interpret the Rules.

The ASCOBANS Rules of Procedure were adopted on the implicit understanding that meetings would be conducted in person. However, they do not preclude meeting through a virtual format. Annex 1 to this document, which, once adopted, will be annexed to the existing Rules of Procedure for the Advisory Committee, elaborates certain adjustments or additions to the Rules that may be necessary with such a change in format. This document follows the operating procedures adopted by the 9th Meeting of the Parties to ASCOBANS (September 2020).

The Advisory Committee is requested to adopt the operating procedures as an annex to the Rules of Procedure presented in ASCOBANS/AC26/Doc.1.3a.
